

REDUCED CAPACITY

During RED LIGHT, we have reduced our capacity to only 100 people inside our building. This allows lots of space to social distance while still having fun! Each trampoline allows 2m distance between the next person.

FACE MASKS & SCAN IN

As per Government instruction EVERYONE MUST be wearing a face mask when entering our building. The mask must remain on unless seated while eating or drinking or jumping on the trampolines.

Everyone MUST scan in using the QR code upon arrival.
We recommend wearing a mask while JUMPing however this is not mandatory
All Staff will be wearing a mask

VACCINATION

All JUMP staff working are 100% vaccinated to ensure your safety. It is a government requirement that all customers over the age of 12 years and 3 months entering our building are also vaccinated and show their vaccine certificate.

CONTACTLESS PAYMENTS ONLY

All bookings must be made online via our website www.jump.co.nz/tickets
Here you will be asked to fill out your details which can be used for contact tracing.
We encourage everyone to scan the government QR code on arrival to trace your movements.

All in store purchases at the cafe will need to be made using paywave or eftpos.

SPECTATOR REQUIREMENTS

During RED LIGHT, we are required to have a large reduction in numbers inside our building. To ensure we can provide a safe and fun environment for our JUMPers we must have a limit on spectators.

- ONE spectator per booking (subject to available spaces)
- We encourage spectators purchase a coffee from our cafe and wait in the car
- Extra spectators will need to purchase a session

SOCIAL DISTANCING

It is important we PLAY IT SAFE
With our reduced capacity this allows more room to move without compromising the social distancing rules. We have marked out waiting areas and cafe seating has been moved to keep your bubble safe. The trampolines are already sized to have a distancing space of 2.2m from one person to another.

CLOSED AREAS OF THE PARK

During RED LIGHT some of our features within the park will be closed.

- Foam Pits
- Ninja courses
- Walking Sticks

SANITISE & EXERCISE!

Everyone MUST sanitise or wash their hands upon entry to JUMP
Although here at JUMP it is all feet based we still need to minimise hand contact on all surfaces.
Once you have sanitised, you can enjoy the FUN on the trampolines.
Every JUMPer must sanitise before entering the trampolines for their session.

CLEANING

At JUMP, hygiene is always a top priority with daily cleaning and sanitising however with COVID requirements we have extra cleaning in place every HOUR between sessions.

Be kind

BOOK ONLINE NOW TO SAVE!

PP
