

## ONLINE BOOKINGS REQUIRED

It is important that you make an ONLINE BOOKING via our website [www.jump.co.nz](http://www.jump.co.nz) BEFORE arriving at JUMP.  
During these restricted levels we are unable to process walk-ins and all payments will be contactless

## FACE MASKS & SCAN IN

As per Government instruction EVERYONE MUST scan in using the QR code and also be wearing a face mask when entering our building.  
The mask must remain on unless seated and having a drink or something to eat.  
We recommend wearing a mask while JUMPing however this is not mandatory  
All Staff will be wearing a mask

## VACCINATION

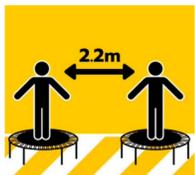

All JUMP staff working are 100% vaccinate to ensure your safety  
It is a Government requirement that all our customers 12years+ entering our building are also fully vaccinated.  
This is to ensure the comfort and safety of all our valued customers when choosing to JUMP with us.

## REDUCED CAPACITY

It is looking like we will be opening again when the traffic light system starts and this means we will have a capacity of 100 people inside the building.  
Each trampoline allows 2m distance between the next person  
This means our session times have also changed to have a half hour break between each session to ensure we can implement our change overs with minimal contact.

## SOCIAL DISTANCING

It is important we PLAY IT SAFE  
With our reduced capacity this allows more room to move without compromising the social distancing rules. We have marked out waiting areas and cafe seating has been moved to keep your bubble safe. The trampolines are already sized to have a distancing space of 2.2m from one person to another.

## CAFE OPEN

Our onsite cafe will be open and serving up all our popular food and beverage items.  
While in level restrictions we will be serving everything in recyclable or compostable takeaway containers  
All in store purchases at the cafe will need to be made using paywave or eftpos.

## **X** CLOSED AREAS OF THE PARK

During level 2 some of our features within the park will be closed.

- Foam Pits (all parks)
- Ninja courses (North Shore)
- Walking Sticks & Battle Beam (Avondale)
- Trapeze and Monkey Bars (Takanini)

## SANITISE & EXERCISE!

Everyone MUST sanitise or wash their hands upon entry to JUMP  
Although here at JUMP it is all feet based we still need to minimise hand contact on all surfaces.  
Once you have sanitised, you can enjoy the FUN on the trampolines.  
Every JUMPer must sanitise before entering the trampolines for their session.

## CLEANING

At JUMP, hygiene is always a top priority with daily cleaning and sanitising however with COVID requirements we have extra cleaning in place every HOUR between sessions.

Be kind
